

McKinley Park Underage Drinking and Other Substances Prevention Coalition (McK-UDOS)

McK-UDOS was founded as a coalition in 2014 under Midwest Asian Health Association (MAHA)

Our Mission

Reduce the level of underage drinking and marijuana use among youth (6th to 12th grade) in McKinley Park

Our Vision

To promote a healthy and drug-free environment for our children and families in McKinley Park and surrounding neighborhoods of Chicago

We inform and encourage students, parents, and schools to engage in open discussion on how use of substances can contribute to various physical and mental health issues

We provide free workshops, presentations, outreach and education campaigns, and other program activities

We

- build community partnerships
- assess community needs and resources
- develop strategic plans
- implement and evaluate coalition activities for awareness, advocacy, education, and sustainability
